Question: How will I know the agricultural extension has been lifted and what to do next?

Answer:

If you go to <https://www.dhs.gov/critical-infrastructure-chemical-security> to sign up for e-mail updates to the CFATS program you will receive an e-mail notification when the agriculture extension has been lifted. The notification will contain instructions for facilities currently affected by the agriculture extension.

You can also go to <http://www.regulations.gov> and sign up for changes to the chemical security rule under DHS-2006-0073 and receive any changes made in the Federal Register. If you sign up for notification of changes, you will receive an e-mail when new information or updated information is available.
